

EnviroScape® Models

Orange County Environmental Protection Division has two EnviroScape® Models for schools to use! These portable table-top models allow students to explore conservation concepts through hands-on activities. By demonstrating pollution sources and their prevention, these models can be used for all ages, from children to adults. EnviroScape® Models have something for everyone to learn!

The EnviroScape® Models are free to rent and easy to use, just contact Carrie Mohanna at Orange County EPD at 407-836-1400 or email Carrie.Mohanna@ocfl.net. You must attend a brief training session before using any of the models. Requests should be made up to 2 weeks in advance.

For more information about the models, visit EnviroScapes.com
